PROFESSIONAL SUMMARY

Final-year B.E. Information Science student skilled in Data Analysis, SQL, Excel, and Power BI, with knowledge of Python, software development, and machine learning. Experienced in data cleaning, data visualization, and dashboard development to generate business insights. Seeking entry-level roles in Data Analytics and Business Intelligence, open to Software Development opportunities.

EDUCATION

East Point College of Engineering and Technology (VTU) Bengaluru, Karnataka
Bachelor of Engineering (B.E.) Information Science and Engineering (CGPA - 8.2) 2022-2026

St. Mary's International School (ICSE, ISC) Chikkamagaluru, Karnataka
12th (ISC): 77% | 10th (ICSE): 79% 2020 - 2022

SKILLS

Languages: Python
Databases: MySQL, SQL
Data Analysis & Visualization: Excel, Power BI, Tableau
Libraries: NumPy, Pandas
Web & APIs: REST APIs
Tools & Platforms: Git, GitHub, VS Code, Jupyter Notebook
Soft Skills: Problem Solving, Communication, Teamwork, Analytical Thinking

INTERNSHIP / TRAINING

Data Analyst Intern (VTU Internship) | *Besant Technologies, Marathahalli, Bengaluru* 2026

- Gained hands-on experience in Excel, SQL, Power BI, and Python for data analysis
- Performed data cleaning, transformation, and visualization on real-world datasets
- Analyzed datasets and built dashboards to extract insights and support data-driven decision-making

PROJECTS

Car Sales Dashboard | *Power BI, Excel* Oct 2025

- View Dashboard**
- Developed an interactive dashboard analyzing 5000+ sales records to generate business insights
- Performed data cleaning and transformation using Excel and Power BI
- Created KPIs and visualizations to track sales performance and improve decision-making

Disaster Relief Management System | *JavaScript, React.js, Node.js, MongoDB* August 2025

- View Live Demo**
- Developed a full-stack web application for real-time disaster response and volunteer coordination
- Designed REST APIs and backend services, integrating MongoDB for efficient data management
- Implemented modules for incident reporting and user registration

Hand Sign Detection | *Python, OpenCV, MediaPipe* December 2024

- Developed a hand gesture recognition system using computer vision techniques (OpenCV, MediaPipe)
- Trained and evaluated models for multi-class hand sign classification while leading a 4-member team

CERTIFICATIONS

SQL(Intermediate) - HackerRank 2025
Microsoft Excel - Coursera Dec 5, 2025
Python - Infosys Springboard 2023

ACHIEVEMENTS & PUBLICATIONS

- Published "Disaster Relief Management System (Hope in Crisis)" in IJSRST (May-June 2025)
- Participated in UDGAM 2025, a National-Level Hackathon conducted by JSS Science and Technology University
